We need to distinguish support for writing development from guidance for teaching children in reading instruction and research. Coverage encompasses the major theories that have informed reading instruction and research, from classical thinking to cutting-edge cognitive, social, linguistic, psychological, and ideological approaches. The 279 entries about theories, approaches, and strategies cover topics ranging from basic literacy development to the latest research on teaching and learning for students with diverse needs, providing a comprehensive overview of the field. The book features clear definitions, explanations, and future directions for each entry, as well as concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common and contemporary critical theories, including deconstruction, feminist theory, poststructuralism, gender studies, race and ethnicity, queer theory, and cultural studies. It includes a new chapter on affective/emotional perspectives, such as the role of engagement and attachment in learning, and several new entries on additional social learning perspectives, such as critical race theory and multiliteracies theory. All chapters are updated, with entries that have been added, revised, and removed to reflect the latest developments in critical theory and the changing landscape of contemporary literature. This comprehensive and accessible resource is ideal for students and professionals who want to improve their critical thinking skills and engage with literature in meaningful and effective ways. The book is also a valuable resource for educators and practitioners who are interested in the latest developments in critical theory and the ways in which it can be applied to teaching and learning in the classroom. Teachers facing the challenge of meeting the diverse reading needs of students will find the structure and tools they need in Jan Richardson's powerful approach to guided reading. Richardson has identified the essential components of an effective guided reading lesson: targeted assessments, data analysis that proposes specific strategies students need, and the use of guided writing to support the reading process. Each chapter contains planning sheets to help teachers analyze assessments in order to group students and select a teaching focus. Includes detailed, ready-to-go lesson plans for all stages of reading: emergent, early, transitional, and fluent Jan Richardson's slightly anticipated sequel to the classic bestseller The Next Step in Guided Reading helps you and your students move forward. Slowly, Jack learns the pleasures of writing poetry as Miss Stretchberry encourages him to tell his own story through verse. What emerges is a moving and memorable story about a boy and his dog and his growing passion for poetry. Much has been written on the topic of guided reading over the last twenty years, but no other leaders in literacy education have championed the topic with such depth and breadth as Irene Fountas and Gay Su Pinnell. In the highly anticipated second edition of Guided Reading, Fountas and Pinnell revisit one of guided reading's critical value within a comprehensive literacy system, and the reflective, responsive teaching required to realize its full potential. New with Guided Reading, Second Edition, (re)discover the essential elements of guided reading through: a wider and more comprehensive look at its place within a coherent literacy system a refined and deeper understanding of its complexity an examination of the steps in implementation—from observing and assessing literacy behaviors, to grouping in a thoughtful and dynamic way, to analyzing texts, to teaching the lesson to teaching for systems of strategic actions a rich text base that can support and extend student learning the re-emerging role of shared reading as a way to lead guided and independent reading forward the development of managed independent learning across the grades an in-depth exploration of responsive teaching the role of facilitative language in supporting change over time in students' processing systems the identification of high priority shifts in learning to focus on at each text level the creation of a learning environment within which literacy and language can flourish. Through guided reading, students learn how to engage in every facet of the reading process and apply their reading power to all literacy contexts.
