Prepare for a richly exotic voyage across continents and centuries in this in-depth exploration of the world of tea. Like wine, tea has its own prestigious growing regions and plantations where are produced refined, noble, and modern varieties as distinctive as the terroir on which they are grown. This impressive volume follows the trade routes of the familiar yet mysterious tea leaf, from the origins of cultivation in China to Japan’s legendary tea ceremony to the ritual of afternoon tea in the U.K. Practical advice describes the benefits of tea in the diet, the optimum brewing temperature, and precise measurements for steeping the perfect cup. Profiles of the Grand Crus of tea (32 worldwide varieties) plus recipes that pair well with tea or have tea as an ingredient are also featured. Rich and sumptuous photographs lead us through this ancient but still contemporary pursuit that reaches from remote Asian villages to exotic islands to today’s modern cities. Tea is a book to be savored with all the senses.

Aspects de l'identité canadienne

A revealing account of Swiss intelligence operations during WWII, including a secret backchannel between Switzerland and Nazi Germany. During World War II, Col. Roger Masson, the head of Swiss Intelligence, maintained a secret link to the German Chief of Espionage, SS Gen. Walter Schellenberg. With access to previously inaccessible documents, including newly discovered material in American archives, historian Pierre Braunschweig fully illuminates this connection for the first time, along with surprising new details about the military threats Switzerland faced in March 1943. During World War II, Switzerland was famous as a center of espionage fielded by Allies and Axis alike. Less has been known, however, about Switzerland’s own intelligence activities, including its secret sources in Hitler’s councils and its counterespionage program at home. In Secret Channel to Berlin, Braunschweig details the functions of Swiss Intelligence during World War II and sheds new light on conflicts between Swiss Intelligence and the federal government in Bern, as well as within the intelligence service itself.

The volume contains 26 contributions to literature, philosophy, linguistics and epigraphy in Islamic culture, ranging from pre-Islamic poetry to contemporary prose, from the Ihwan as-Safa to the theology of Mawdudi, from lexicography to epigraphy. These papers were read at the Eighteenth International Congress of the Union Europeenne des Arabisants et Islamisants, organized by the Catholic University of Leuven (KUL) from 3 to 10 September 1996. A second volume of proceedings, that appears along with this one (OLA 86), is more concerned with questions of actuality and political organisation, including Christian minorities in the Arab world, in their relation to the Muslim environment. As such the two volumes put together, will provide to the world of learning, we may say, an overall picture of the current scientific investigations about Islamic culture and society.

The volume contains the papers read at the 51st Colloquium Biblicum Lovaniense (July 31 - August 2, 2002) dedicated to the study of the theme of Wisdom and Apocalypticism in the Dead Sea Scrolls and in the biblical tradition in general. The "Main papers" and some of the "Offered papers" have been thematically grouped in four parts. Part I comprises four articles dealing with the relationship between wisdom and apocalypticism in the Scrolls compared to the biblical tradition. Part II includes five papers which focus on specific wisdom compositions from Qumran, such as 1Q/4QMysteries, 4QInstruction, 4QTime of Righteousness, or the "Tractate of the Two Spirits" from the Rule of the Community. The nine contributions of Part III analyse different aspects of biblical Wisdom compositions (in Qohelet, Sirach, and the Wisdom of Solomon) or of apocalyptic writings (in 1 Enoch and 4 Ezra) in the light of the Qumran Wisdom texts. Part IV groups six studies on several aspects of the Wisdom compositions from Qumran (messianic ideas, ecstatic worship, the beatitudes, or the fate of the righteous) which are directly relevant for the study of the New Testament. The articles are written in English (14), French (6), and German (4). Among the contributors are specialists of the Dead Sea Scrolls (Jean Duhaime, Torleif Elgvin, Armin Lange, Hermann Lichtenberger, Emile Puech, Eibert Tigchelaar) and of Early Judaism (e.g., John J. Collins, Daniel Harrington, Michael Knibb), as well as Old Testament scholars (e.g., Hainz-Josef Fabry, Maurice Gilbert, Klaus Koch).

Oeuvres de Molière: Lexique de la langue de Molière par A. et P. Desfeuilles

Ce volume contient une série d'études d'auteurs dont les œuvres parlent de provinces allant des Maritimes à la Colombie britannique, en passant par le Québec, l'Ontario et la Saskatchewan. C'est dire que, sans prétendre être exhaustif, le présent ouvrage aborde des aspects complémentaires de cette identité canadienne fondée sur la reconnaissance pas toujours facile de la diversité des cultures. L'exemple du camp de Kandelore offre un contrepoint représentatif de la politique culturelle volontariste du Canada face aux difficultés évoquées par Miriam Waddington, tandis que l'analyse de Modcai Richler fait écho à son étude de l'intégration de la culture juive dans la société canadienne. W.O. Mitchell laisse entrevoir l'univers autochtone face au monde WASP, et il est possible de mesurer le chemin parcouru depuis Two Solitudes. En fait, ce petit ouvrage fait apparaître comment les multiples solitudes culturelles entreprennent de vivre ensemble.

If we are to believe sensationalist media coverage, Satanism is, at its most benign, the purview of people who dress in black, adorn themselves with skull and pentagram paraphernalia, and listen to heavy metal. At its most sinister, its adherents are worshippers of evil incarnate and engage in violent and perverse secret rituals, the details of which mainstream society imagines with a fascination verging on the obscene.
Children of Lucifer debunks these facile characterizations by exploring the historical origins of modern Satanism. Ruben van Luijk traces the movement's development from a concept invented by a Christian church eager to demonize its internal and external competitors to a positive (anti-)religious identity embraced by various groups in the modern West. Van Luijk offers a comprehensive intellectual history of this long and unpredictable trajectory. This story involves Romantic poets, radical anarchists, eccentric esotericists, Decadent writers, and schismatic exorcists, among others, and culminates in the establishment of the Church of Satan by carnival entertainer Anton Szandor LaVey. Yet it is more than a collection of colorful characters and unlikely historical episodes. The emergence of new attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions. It is also closely connected to secularization, that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self-imposed state of religious indecision. Children of Lucifer makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it. Offering the most comprehensive account of this history yet written, van Luijk proves that, in the case of Satanism, the facts are much more interesting than the fiction.

A History of the Self-Determination of Peoples

L’histoire est presque Totale. Guide pratique des mangeurs de Temps

In occupied Belgium during World War II, Paul de Man (1919-1983) wrote music, lecture, and exhibition reviews, a regular book column, interviews, and articles on cultural politics for the Brussels daily newspaper Le Soir. From December 1940 until he resigned in November 1942, de Man contributed almost 200 articles to this and another newspaper, both then controlled by Nazi sympathizers and vocal advocates of the "new order." Later to become one of the most respected and influential literary theorists in America, de Man, then 21 and 22 years old, wrote primarily as the chief literary critic for Le Soir. His weekly column reviewed the latest novels and poetry from Belgium, France, Germany, and England. De Man commented extensively on major propaganda expositions, and interviewed leading writers and cultural figures, including Paul Valery and the future Vichy Education minister Abel Bonnard. The political extremes of de Man's wartime writing are marked by two articles. His single anti-Semitic article, "Les Juifs dans la litterature actuelle" (4 March 1941), acquiesces in the deportation of Jews to "a Jewish colony isolated from Europe." But de Man later argued in defense of a Resistance-linked journal ("A propos de la revue Messages," 14 July 1942) against the "totalitarian" censors' "unconsidered attacks." This volume reprints in facsimile all of de Man's articles in Le Soir as well as three articles he wrote prior to the occupation in 1940 as editor of the liberal Cahiers du Libre Examen. It also includes English translations of the ten articles written in Flemmish for the Antwerp paper Het Vlaamsche Land, in March-October 1942. The collection appears under the auspices of the Oxford Literary Review, England's leading theoretical journal for over a decade.

Grand Dictionnaire Universel [du XIXe Siecle] Francais: (1.)-2. supplement.1878-90?

Approaching early modern spies, espionage and secret diplomacy as central elements in (wartime) communication networks, the thirteen contributions to this volume examine different kinds of espionage (economic espionage, political espionage etc.), identify different types of spies – diplomats, postmasters, court musicians, cooks and prostitutes – and reflect the multiple meanings and functions of information obtained through the many practices of spying in the early modern period. Drawing on examples from a
wide range of states and empires, the volume looks into recruitment strategies and cryptography, highlights processes of professionalization and traces the reputation of spies ranging from the "honourable" to the "villain".

This comprehensive collection offers a concise introduction to the institutional framework of the Holy See, conceptualizing papal agency and positions from a range of international theory perspectives. The authors – international scholars from political science, history, and religious studies – explore multiple fields of papal and Vatican influence, ranging from spy networks and inter-religious dialogue to social doctrine and religious freedom. This book demonstrates that, contrary to secularization theory, the papacy is not in decline in world politics. Since World War II, the Holy See has played a steadily increasing role in international relations. Globalization supports the role of the Catholic Church as a transnational actor not only in the advanced industrial societies of the West but also increasingly across the Global South. In this volume, the authors document the legacies of John Paul II and Benedict XVI as well as the current pontificate of Pope Francis from a range of contemporary perspectives. This book comprises research articles and commentary essays on the papacy in world politics originally published in The Review of Faith & International Affairs.

This volume, in celebration of Peter Machinist, Hancock Professor of Hebrew and Other Oriental Languages at Harvard University, includes twenty-eight illuminating essays on ancient Near Eastern history and literature, which focus especially on the intersection of these fields. Contributors include one of Machinist’s teachers, several of his students, and numerous colleagues and friends. These essays probe topics for which Machinist’s work has often set new standards. And in the spirit of the honoree and his interests, these comparative studies encompass Babel, Bibel, and more. In them, Assyriologists contend with biblical cruxes and biblicists engage Assyriological research, while classicists and Hittitologists participate with considerations of their respective disciplines within a broad cross-cultural context. The volume is a must for anyone committed to the ongoing comparative study of the ancient Near East, and within that framework, the historical study of the Hebrew Bible.
