Jan 24, 2019 · What is Peanut Stew? This delicious stew is inspired by the many versions of peanut stew made in several countries across West Africa. The recipe and names for the stew vary from region to region, some of the names being: groundnut stew, maafe, or domoda, to name a few. The common thread between these regional recipes is a tomato broth made rich and ...
Groundnut oil is most commonly used in all Asian cuisines. A few finely-sliced vegetables, tossed around a sizzling-hot wok or kadai with a dash of groundnut oil makes a super healthy, yet delicious lunch. Add some pre-cooked noodles or chicken or seafood and the dish would taste just as good and still be perfectly light and healthy.

The peanut, also known as the groundnut, goober (US), pindar (US) or monkey nut (UK), and taxonomically classified as Arachis hypogaea, is a legume crop grown mainly for its edible seeds. It is widely grown in the tropics and subtropics, being important to both small and large commercial producers. It is classified as both a grain legume and, due to its high oil content, an...

Premature harvesting of groundnut pods lowers the yield, oil percentage, and quality of seeds. Delay in harvesting after physiological maturity can result in increased Aspergillus flavus infection, and aflatoxin contamination in pods/seeds, and many pods may be left in the soil due to a weakening of pegs.

Groundnut oil also known as peanut or arachis oil, groundnut oil tends to have a mild flavour. It’s high in MUFAs (50%), including oleic acid, and in its unrefined form is a good source of vitamin E. Being made up of 30% PUFAs means groundnut oil is prone to oxidation, although it does boast a relatively high smoke point.

Peanut oil is also called groundnut oil because the peanut is a variety of groundnut and member of the legume family. After harvest, peanuts intended for peanut oil are sent to special manufacturing plants where they're shelled and prepared for pressing. In the press, the peanuts undergo extreme pressure to extract the oils.
