Shigeru Ban, a Tokyo-born, 56-year-old architect with offices in Tokyo, Paris and New York, is rare in the field of architecture. He designs elegant, innovative work for private clients, and uses the same inventive and resourceful design approach for his extensive humanitarian efforts.

Why is sustainable architecture so important? Designing sustainable architecture means taking a few fundamental elements into consideration: orientation, shading and sunlight crated by pre-existing elements, natural ventilation, as well as the use of biomass, Ambient A ssisted Living or domotics and renewable energy systems, all created and incorporated with materials ...

Shigeru Ban: Emergency shelters made from paper | TED Talk

Long before sustainability was a buzzword, architect Shigeru Ban was using ecologically sound building materials such as cardboard tubes. He uses them to build remarkable temporary structures for disaster-struck nations such as Haiti, Rwanda and Japan. Yet often, these buildings remain a beloved part of the landscape long after they have served their intended purpose.

Paper Dome - Wikipedia

Euglena Co. is the world’s first company to succeed in growing large amounts of the microalgae euglena for human consumption in an outdoor facility.
Shigeru Ban (born 5 August 1957) is a Japanese architect, known for his innovative work with paper, particularly recycled cardboard tubes used to quickly and efficiently house disaster victims. Many of his notable designs are structures which are temporary, prefabricated, or incorporate inexpensive and unconventional materials in innovative ways.

Since the 2011 Japan earthquake, Shigeru Ban Architects have visited more than 50 evacuation facilities and installed over 1800 units (2m x 2m) of our Paper Partition System, to ensure privacy.

After a horrible earthquake hit Onagawa, Japan in 2011, Shigeru Ban designed and built these temporary structures out of paper and shipping containers. The airy design and fast relief helped to revitalize the community and lift the spirits of those affected by the disaster.
