Dec 01, 1993 · If its economic growth continues, the rise of China will be the most important change in the global economic, political and military balance of the next century. This growth will be accompanied by environmental degradation, an activist foreign policy, and even military adventures. Yet the pervasive tendency to blame China, and the current regime in particular, …

The Scramble for Africa, also called the Partition of Africa, or the Conquest of Africa, was the invasion, occupation, division, and colonization of most of Africa by seven Western European powers during a short period known to historians as the New Imperialism (between 1881 and 1914). The 10 percent of Africa that was under formal European control in 1870 increased to …

The Scramble for Africa (or the Race for Africa) was the proliferation of conflicting European claims to African territory during the New Imperialism period, between the 1880s and the start of World War I. The latter half of the nineteenth century saw the transition from the "informal" imperialism of control through military influence and economic dominance to that of direct rule.
