Trial by Fire and Water
The Parliament of Trees made him the master of all plants. The Parliament of Stones gave him control of the earth on which they grow. And, the Parliament of Rivers made him the master of the waters too. In his youth, he was a god among men. But, as the centuries passed, he became like unto a god. And, just like many of the gods that preceded him, he has grown wrathful in his judgment of mankind's sins. Now, as he undergoes a final, terrifying battle in the purifying fire of the Parliament of Fire, the creature who was once Alec Holland holds the future of humanity in his cold, ever-bending hands. And while the Swamp Thing's ties to his human side continue to weaken, the power of the fire grows both within him and in the arrow that will destroy him. In the end, the enemies and allies alike— including the estranged wife Abby and the master magi John Constantine—must take a last-ditch appeal to the man within the monster. If they fail, the choice is stark: will the Swamp Thing before him complete his trial, or perish with the rest of Numa apologia?
In SWAMP THING: TRIAL BY FIRE, comic superstar Mark Millar concludes his triumphant run on the legendary VERTIGO series with a powerhouse performance illuminated by art from Phil Hester, Kim DeMulder and Curt Swan. Collects issues #161-171.
Assessment of Current U.S. Department of Transportation Fire Safety Efforts: A Chronology of the April 1972 invasion of South Vietnam by the North Vietnamese army as told by an American Marine who was a senior advisor to the Vietnamese Marines. Original.
Lightning from the Sky, Thunder from the Sea: The hit television show that helped revolutionize emergency medical care in the streets is still a favorite with fans all across the United States. In June 1972, 25,000 school students faced down the tanks and guns of a vicious racist regime, in a revolt that galvanized the black working and became a pivotal point in the anti-apartheid movement. More than this, the book overturns much of the conventional logic that served to explain the events of 1976. The book reveals, for the first time, the extent of state-sanctioned brutality, and introduces the crucial threads that connect the 1976 events with the present. The book begins two decades after the Soweto riots, and 200 pages before the state of Emergency, to tell the story of a country and a people on the move. The book concludes by examining the 1990 elections, and looking forward to the future of South Africa.

and tank battles, with the help of air power, managed to successfully defend Kontum and prevent South Vietnam from being cut in half and defeated. Although much has been written about the Vietnam War, little is known about the Easter Offensive or the Battle of Kontum. The Battle of Kontum: The Battle to Save South Vietnam, Thomas F. McKeena fills this gap, offering the only in-depth account available of this violent engagement. McKeena, a U.S. Army lieutenant colonel assigned as a military adviser to the 3rd Division, participated in the battle of Kontum and combines his personal experiences with years of interviews and research from primary sources to describe the events leading up to the invasion and the battle itself. Kontum sheds new light on the actions of U.S. advisers in combat during the Vietnam War. McKeena's book is not only an essential historical resource for America's most controversial war, but a personal story of valor and survival.

Trial by Fire In this wide-ranging work on Greek religion and mythology, Jan N. Bremmer brings together his stimulating and innovative articles, which have all been updated and revised where necessary. In three thematic sections, he analyses central aspects of Greek religion, beginning with the gods and heroes and paying special attention to the unity of the divine nature and the emergence of the category 'heno'. The second section begins with a discussion of the nature of polis religion, continues with various facets, such as seers, secrecy and the soul, and concludes with the influence of the Ancient Near East. The third section studies human sacrifice and offers the most recent analysis of the ideal animal sacrifice, combining literature, epigraphy, iconography, and zooarchaeology. Regarding human sacrifice, it concentrates on the famous cases of Iphigeneia and the werewolves of Mount Lykaion. The fourth and final section investigates key elements of Greek mythology, such as the definition of myth and its relationship to ritual, and ends with a brief history of the study of Greek mythology. The multi-disciplinary approach and rich footnotes make this work a must for anybody interested in Greek religion and mythology.

Professional Journal of the United States Army This extraordinary publication, sponsored by the Maryland Fireman's Association, contains extensive contact information pertaining to the Association and the State Fire Marshal, as well as comprehensive coverage of Fire and Emergency Services related Statutes, Rules and Regulations.

Emergency! From his bawdy and brave fellow firefighters to the hopeful, hateful, beautiful and beleaguered residents of the poverty-stricken district where he works, Dennis Smith tells the story of a brutalising yet rewarding profession.

Source Material Reference Guide ANGLICO: "Super Grunts" of 1st ANGLICO were deployed to all four tactical zones of Vietnam in small mobile fire control teams, providing support to U.S. Army and allied elements. This book is the last tactical unit to stand down from the war and gained distinction as the only Marines in-country operating with 1st ANGLICO. Working closely with Korean Marines, recounting several actions involving these legendary warriors from the land of the Morning Calm, this little known but highly effective unit had an impact on the war far greater than their small numbers. Field radio operators and naval gunfire spotters composed the tactical membership of this unit. Both professions were cross trained in each capability, and each in turn was further qualified as tactical air controllers. An airborne capable platform was established, mandating many ANGLICO and attend jump school and undertake other specialty training in the event they are called on to enter combat by unconventional means. Not being able to predict who they may be called on to support, training was pushed to the level of the most elite forces in the free world. BLUE DRAGONS: Most men of the Blue Dragon Brigade came of age during a war that raged fierce on their own homeland little more than a decade earlier. During a short lived occupation by North Korea, the people of the south endured extremely harsh treatment by would be conquerors. Events of recent history still burned in their hearts and haunted their dreams. They were mostly all children at the time leaving scarcely a man untouched by personal tragedy that could only be forged in a crucible of terror. Many were orphaned and all shared a thirst to settle a score that only those who drink deep from the same cup of dread can truly understand.
